New England GeoSystems is currently looking to add one or two positions to its staff in Middletown, CT. Please refer to the job description below.

**GIS Technician – Entry / Mid-Level**

**New England GeoSystems**, a full-service GIS consulting firm located in Middletown, CT is seeking to fill one or two entry to mid-level GIS technician positions.

**Duties & Responsibilities:**
The work will initially be focused on supporting our cadastral / parcel maintenance team. Training will be provided but a solid familiarity with editing in ESRI’s ArcMap software is required. A familiarity with COGO drafting methods is desired, as would a working knowledge of Excel, Access and SQL.

The technician will be trained to update existing municipal parcel datasets and accompanying annotation using parcel surveys, as-built maps, deeds and other land records. In addition, the technician will be responsible for updating related datasets such as zoning, easements and other administrative boundaries. Possible expansion of duties may include training as part of the E911 mapping & addressing team.

**Qualifications:** Prior experience and competence are the most important qualifications. The ideal applicant will have, or be working towards, a 4 year degree in a related field. Knowledge of editing techniques using ESRI’s ArcMap software is a must.

**Administrative:** This is a 40 hour per week position on-site in our Middletown, CT office. Part time consideration and/or scheduling flexibility is possible. Benefits for the full time position will include health, life, disability and retirement and will be available after a short waiting period and performance evaluation. Salary is based on experience.

These positions are initially in support of a 10 month parcel development project. Employment opportunities beyond the 10 month project will be based on performance during this initial project.

**Interested:** Please send your resume, description of your current work / school situation, availability and any other supporting material and questions to **JOBS@NE-GEO.COM**. No phone calls please.

There is no stipend for out-of-state applicants travel or relocation expenses. Any prospective employees must be able to be present in Middletown, CT for an in-person interview.
